

# FARMER LED VINTAGE

Light fittings for indoor and outdoor use.

## TECHNICAL DESCRIPTION

The body is made of steel sheet and finished with powder paint. The inorganic glass cover with seal and protective basket are fixed to the body with four metal caps. There is a LED module built inside the light fitting and it is comprised of a board fitted with LEDs and a power supply. According to the individual types, the light fitting includes: an AISi terminal box, a steel pipe, or a galvanized steel sheet boom. The light fitting is made as a through light fitting and is provided with two cable outlets. The max. cross-section of the connecting conductors is 4 mm<sup>2</sup>.

## INSTALLATION

On the ceiling.

## LIFETIME

100.000 hodin, L90B10

Type	Power input [W] / Luminous flux [lm]	Luminous efficiency [lm/W]	Angle of beam [°]	Color temperature [K]	CRI	Part of light fitting	Weight [kg]
