

# FARMER VINTAGE

INDUSTRY LUMINAIRES

Light fittings for indoor and outdoor use.

## TECHNICAL DESCRIPTION

The body is made of steel sheet and finished with powder paint. The inorganic glass cover (for request) with seal are fixed to the body with four metal caps. According to the individual types, the light fitting includes: an AISi terminal box, a steel pipe, or a galvanized steel sheet boom. The light fitting is made as a through light fitting and is provided with two cable outlets. The max. cross-section of the connecting conductors is 4 mm<sup>2</sup>.

## INSTALLATION

On the ceiling

Type	Socket	Part of the luminaire	Weight [kg]
221 11 01 (K)	E27	Pipe and terminal box	4,8
221 12 01 (K)	E27	Holder	4,8
221 13 01 (K)	E27	Terminal box	4,8
221 14 01 (K)	E27	Chain	4,8

\*By adding the letter „K“ after the type designation, the light fittings will be provided with protective baskets (e.g. 221 14 01K).

**The color scheme is customized to the customer's preference.**
